At Texas Children’s Cancer and Hematology Centers, we are proud to help children fight and defeat cancer and blood disorders every day. We’ve made considerable progress in a span of just 65 years, but we know there’s still much work to be done.

As one of the largest and top ranked pediatric cancer and hematology centers in the United States, we see:

- 4,220 new patients each year
- 95 average inpatients per day
- 120 bone marrow transplants yearly

Our Global HOPE℠ (Hematology-Oncology Pediatric Excellence) Program operates in Botswana, Malawi and Uganda with plans to expand to other African nations. We have treated over 7,000 patients and trained over 1,600 health care professionals.

Our team of experts includes:

- 350 researchers and staff in 47 different laboratories
- 200 faculty with access to 250 active therapeutic clinical trials
- Over 1,000 employees dedicated to cancer and blood disorders

Our programs include:

- Bone Marrow Failure
- Bone Marrow/Stem Cell Transplant
- Brain Tumor
- Cancer Genetics & Genomics
- Cardio-Oncology
- Cell & Gene Therapy
- Developmental Therapeutics
- Epidemiology & Prevention
- Faris D. Virani Ewing Sarcoma Center
- Fayez Sarofim Lymphoma Center
- General Hematology
- Global HOPE
- Hemostasis & Thrombosis
- Histiocytosis
- Iron Disorders & Nutritional Anemias
- ITP & Immune Hematology
- Leukemia
- Liver Tumor
- Long-Term Survivor
- Neuroblastoma
- Palliative Care
- Precision Oncology
- Rare Tumor
- Retinoblastoma
- Sickle Cell Disease
- Solid Tumors
- Thyroid Cancer
- Vascular Anomalies
- Young Women’s Hemostasis and Thrombosis
