

RediStik® Microsurgery Trainer

#1703-744

SAWBONES®

Simulation task trainer designed and vetted by frontline innovators at Texas Children's Hospital® in collaboration with Pacific Research Laboratories, Inc./Sawbones®.

RediStik® Microsurgery Trainer

RediStik® Microsurgery Trainer is a **cost effective and realistic microsurgical trainer** that provides surgeons with the ability to **practice microanastomosis of any complexity in different environments**. It can be used with an operating microscope or with loupe magnification. Adding this training tool **will improve the confidence, efficiency, and complexity of your surgical comfort**.

- A **compact and portable kit**.
- The novel white arterial microvessel tissue **emulates real life microvessels** when suturing for vessel repairs.
- Vessels can be **primed to evaluate repair and flow**.
- You can create **realistic bleed back** during the training.
- Estimated **50 to >100 anastomosis** on the micro vessels included in the starter kit.
- The skin and removable muscle layer composition **mimics a real patient** and has an **adjustable wound depth providing advanced training** options to further challenge the trainee.
- Use the replacement muscle layers to create a **custom wound bed** to fit your needs.
- **Two surgeons** can participate in the procedure **at the same time**.

Dr. Christopher Pederson and Dr. Edward Reece, performing microsurgery on the RediStik® Microsurgery Trainer.

Progress from novice to advanced in microanastomosis of any complexity in different environments.

ORDER REFERENCES

RediStik® Microsurgery Trainer Starter Kit
Part #1703-744 Price: \$585.00 USD

Includes:

- 1x Nylon carrying bag with branding
- White arterial vessels:
 - 2x 1.5 mm OD microvessel 18" length
 - 2x 3.0 mm OD microvessel 18" length
- 1x Black base (reusable):
 - Includes QR code to the video playlist (instructions and skills video)
- 1x Skin overlay (reusable)
- 3x Muscle layers (reusable)
- Micro surgical instruments (reusable):
 - 1x Needle holder • 1x Pick up • 1x Scissors

RediStik® Microvessel Replacement Kit
Part #1703-744-10 Price: \$50.00 USD

Includes:

- 1x 1.5 mm OD microvessel 18" length
- 1x 3.0 mm OD microvessel 18" length

Muscle layers can be sutured

RediStik® Muscle Replacement Kit
Part #1703-744-30 Price: \$50.00 USD

Includes:

Three muscle layers that can be cut to create custom wound beds according to your specifications.

Instruments in use

RediStik® Microsurgical Instrument Kit
Part #1703-744-20 Price: \$70.00 USD

Includes:

- Micro surgical instruments made of German steel.
 - 1x Needle holder • 1x Pick up • 1x Scissors
