

Kidney Transplant Program

Texas Children's
Hospital®

Led by:

Medical Director, Eileen D. Brewer, M.D.

Surgical Director, Christine Ann O'Mahony, M.D.

Texas Children's Hospital renal, or kidney, transplant program is one of the largest pediatric renal transplant programs in the nation. Since 1988, our surgeons have performed more than 343 kidney transplants at the hospital.

A team of experts in all areas of patient care – from transplant surgeons to pediatric nephrologists to transplant coordinators and dietitians, child life specialists, and social workers. This multidisciplinary team responds to patient and family needs or emergencies and promotes teamwork in caring for patients.

PROGRAM FLAGSHIPS

- One of the largest pediatric kidney transplant programs in the nation
- Double and triple organ transplant capability
- Experience in using both donated kidneys and living kidney donors
- Supportive care provided by the Pediatric Dialysis Program, which has expertise in performing acute and chronic hemodialysis, peritoneal dialysis and pheresis for children of all ages and sizes from infant to adolescent

U.S. NEWS & WORLD REPORT

Texas Children's Hospital is recognized as one of the nation's best children's hospitals by *U.S. News & World Report*. As the only nationally-ranked hospital in Texas, we're proud to have top 10 rankings in all 10 recognized specialties. We are also #2 in the nation for Nephrology, according to the 2019-20 rankings.
