

Meyer Center for Developmental Pediatrics and Autism

Virtual Waitlist Informational Webinar

My child is on the Autism Center or Meyer Center for Developmental Pediatrics waitlist. What should I do now?

This 2-hour workshop will help parents be better prepared for their child's visit by :

- Providing information about our services
- Setting expectations for the visit
- Identifying steps that parents can take while waiting
- Providing answers to frequently asked questions

This program is intended for families currently on the wait list. Given the diverse needs of children seen through our clinics, we will not be discussing diagnosis specific information at this time.

To register for an upcoming workshop date, e-mail swprograms@texaschildrens.org

Login information for the workshop will be sent out closer to the date of the webinar.
