ALL STUDENTS MUST READ &  
ATTEST TO COMPLETION OF REVIEW OF PROCESS AND GUIDELINES

## Directions for Screening, Entry Process, Personal Protective Equipment (PPE)

### Screening & Entry Process at Texas Children's Hospital

#### Screening for Staff, Students and Visitors

- Screening stations are set up at all TCH locations to confirm that everyone entering the facility has been effectively screened for travel and symptoms. Questionnaire is conducted through red cap survey via QR code or via in-person survey.
- Everyone who clears the screening will receive a face mask and a daily clearance wristband.
- Anyone that does not pass the screening thresholds will be asked to leave the premises and contact their educational rotation leader and/or administrative contact for next steps.

**Prior to entry at the screening station:**  
Must be done every day you enter the facility

#### Thermal Camera Screening

- Temperature will be screened using the infrared thermal imaging cameras
- You will be asked to remove items away from your face and head (i.e., mask, glasses, and hat)
- If temperature of 100.0°F, or above is detected, you will be asked to step aside, sit down for 5 minutes to become acclimated to the climate prior to re-screening.
- If the second reading is 99.9°F or below, you will be cleared to proceed.
- If the second reading is equal to or above 100.0°F, you will not be cleared and will be directed to leave the premises and contact your school faculty for next steps.
- Universal masking is required of all employees, students, patients and visitors upon screening.
- Hospital issued masks are to be worn in all patient care environment at all times.

**Social Distancing and Hand Hygiene:** Everyone is encouraged to continue to hold themselves and their colleagues accountable for maintaining the appropriate social distancing whenever and wherever possible, and for adhering to proper hand hygiene practices. Finally, if you feel ill with any symptoms, please stay at home.

**Masking:** Universal Masking Programs have proven to be successful during this event and will continue to be enforced. At the end of a shift, take care to discard your mask and clearance wristband in the trash rather than littering, especially in garages and parking lots.
