Your referral to Texas Children’s Hospital: Neurosurgery

Your doctor has referred your child to a pediatric neurosurgery provider at Texas Children’s Hospital. For your convenience, our neurosurgery providers may offer video visits for certain conditions.

Many visit types can be scheduled using your Texas Children’s MyChart account.

If you do not have a MyChart account for your child or prefer making an appointment over the phone, please call 832-822-3950, Mon. – Fri., 7 a.m. – 7 p.m. or Sat. 9 a.m. – 2 p.m.

Prior to the date of your appointment, we will need all pertinent medical records including the actual images if your child has had imaging performed outside of Texas Children's Hospital. The images must be submitted in DICOM format to be compatible with Texas Children's Hospital system. If applicable, the images must be received in our office 24 to 48 hours before your child’s appointment or your appointment will be cancelled and rescheduled. If your referring provider has not already sent your imaging to us, please send a CD containing the images to the following address via FedEx or UPS and keep the tracking number:

Texas Children's Hospital Pediatric Neurosurgery
6701 Fannin Street, Suite 1230.01
Houston, TX 77030

Thank you for allowing us to care for your child.
