

Your referral to Texas Children's Hospital: Travel Medicine

Your doctor has referred your family to the Travel Medicine Clinic at Texas Children's Hospital.

Texas Children's Travel Medicine Clinic provides adults and children with vaccines required to enter foreign countries and those recommended by the Centers for Disease Control and Prevention and the World Health Organization. Certain recommended vaccines may help families reduce the risk of acquiring illnesses during international travel, including travel for international adoption.

Please keep in mind that our travel clinic does not accept insurance nor the flex spending card. Payment can be made in the form of cash, check or credit card.

Your referral has been received, and we are ready to schedule your family's appointments.

To make an appointment, please call 832-822-1038, Mon. – Fri., 8 a.m. – 4:30 p.m., excluding holidays.

Thank you for allowing us to care for your child.
