

Plant your roots and grow with us in Texas!

Texas Children's Hospital opened a new free-standing children's and women's hospital in the state's capital of Austin — one of the nations most dynamic, fastest-growing areas.

Texas Children's Hospital North Austin Campus serves young families drawn to the city by its rich economic and cultural assets, including legions of Fortune 500 companies — such as Amazon, Apple, Meta, Google, Tesla and Whole Foods — top-tier universities, a renowned entertainment industry and a vibrant Texas Hill Country landscape.

Recruiting to meet growing health care needs

Consistently ranked the best children's hospital in Texas and among the best in the nation, Texas Children's Hospital is world renowned for expertise in pediatric and women's health. Our North Austin Campus seeks highly skilled experts to join our team — **including anesthesiologists, nurse anesthetists and certified anesthesiologist assistants** — who wish to build thriving careers in a family-centered environment that celebrates and rewards its physicians and staff, while supporting their personal and professional growth and success.
