

# Join our **One Amazing Team**

**Become an Anesthesiology professional  
at Texas Children's Hospital**

## Differentiators

- Texas Children's Hospital is ranked the No. 1 pediatric hospital in Texas.
- Texas Children's Heart Center has been the No. 1 pediatric heart center in the nation for cardiology and heart surgery for seven years in a row.
- Our Heart Center experiences the highest volumes of heart and lung transplants in the nation.
- CV anesthesia practice includes opportunities in the cardiovascular operating room and cath lab.
- The full scope of anesthesia services to patients of all ages is provided.
- Opportunities to practice at our community campuses (Texas Medical Center, West, The Woodlands and North Austin) are available.
- Texas Children's prioritizes education and has a dedicated education fund.
- CRNA and CAA team members are Baylor College of Medicine faculty.
- We have a dedicated onboarding program for new graduates and APPs who are new to full-time pediatric practice.
- A Physician, CRNA and CAA care team model is in practice.
