

Texas Children's Hospital, ranked nationally by U.S. News & World Report, is the primary pediatric teaching hospital for Baylor College of Medicine.

Texas Children's Hospital and the Department of Pediatrics at Baylor College of Medicine offer some of the largest and most highly regarded training programs and clinical opportunities in the country. The Department of Pediatrics, one of the most diverse and most successful pediatric programs, is committed to providing superior programs of instruction for medical students and residents, advancing specialty knowledge in the medical sciences, particularly as it relates to the health problems of children, and maintaining its role as a major contributor to research training and scientific activities that enhance the health of children everywhere.
