Texas Children's Hospital®

KANGAROO CREW®

Intensive Care Transport Team

Our transport team is just one call away. With multiple teams scheduled 24 hours a day, we aim to promptly transport your patients. The transfer center is staffed by ICU physicians to assist in medical management as our team arrives.

Our Director

Basheer Ahmed, MD
Program Director – Kangaroo Crew
mxahmed1@texaschildrens.org

From neonates to adolescents, the Texas Children's Kangaroo Crew transports critically ill patients to our four Texas Children's Hospital locations for expert care. Our specially equipped ground ambulances, airplane and helicopter transport patients regionally and from across the United States. Our specialized critical care and neonatal transport teams include clinicians who are trained to support the unique clinical needs of these populations and have a background in intensive care and Level I trauma.

How to reach us

Texas Children's Transfer Center
Texas Medical Center, West Campus,
The Woodlands, North Austin Campus

Toll Free 877-770-5550

Resources

After transfer, follow your patient's care with our web-based provider portal.
