Fellowships and Residencies

Baylor College of Medicine

Texas Children's Hospital — the primary pediatric teaching hospital for Baylor College of Medicine — is ranked #1 in Texas and among the best children's hospitals in the nation by U.S. News & World Report.

Together, Texas Children's and Baylor College of Medicine offer some of the best and most highly regarded training programs in the country. With 50+ residencies and fellowships — including 11 world-renowned Cancer and Hematology Center Fellowship and Education programs — Texas Children's and Baylor College of Medicine offer extensive training opportunities.

Located in the heart of Houston, we are part of the Texas Medical Center, one of the largest medical complexes in the world. Global leaders in innovative patient care and breakthrough research routinely work alongside and teach our trainees.

Texas Children's

Training the next generation of physicians and scientists is a key mission of Texas Children's Hospital and our partners at Baylor College of Medicine. Over 30 outstanding clinical and basic science programs provide comprehensive, multidisciplinary training opportunities. Research spans more than 800 active clinical trials, over 800,000 square feet of laboratory space and one of the largest and most diverse pediatric patient populations in the country. With funding of more than $115 million annually, over 120 Texas Children's and Baylor College of Medicine principal investigators are conducting over 1,000 clinical, basic science and translational research projects.

About Texas Children's Hospital

Texas Children's Hospital, a not-for-profit health care organization, is committed to creating a healthier future for children and women throughout the globe by leading in patient care, education and research. Consistently ranked as the best children's hospital in Texas, and among the top in the nation, Texas Children's has garnered widespread recognition for its expertise and breakthroughs in pediatric and women's health. With a staff of more than 2,000 medical professionals who work across more than 40 subspecialties, Texas Children's has nearly 4.9 million patient encounters and nearly 7,000 births annually.

The hospital includes:

- Jan and Dan Duncan Neurological Research Institute
- Texas Children's Research Institute
- Texas Children's Pavilion for Women, a comprehensive obstetrics/gynecology facility focusing on high-risk births
- Texas Children's Hospital Katy
- Texas Children's Hospital The Woodlands
- Texas Children's Hospital Austin
- Texas Children's Pediatrics
- Texas Children's Urgent Care
- Texas Children's Global Health program
