

# Texas Children's Cancer and Hematology Center

Recognized as a premier center of its kind in North America, Texas Children's Cancer and Hematology Center has over 200 faculty and 1,000 staff members. Our physician-scientists are driving the field forward through their research discoveries and the translation of those discoveries into novel treatments for childhood cancer. We treat patients from all 50 states, as well as 56 countries from five different continents. These patients come to us from around the world because, as leaders in the field, we provide the most advanced and life-changing therapies available.

## Why we're a premier center:

- Leader in precision oncology
- Over 500 new cancer patients diagnosed each year
- 400+ active clinical trials
- 200+ faculty and 1000+ dedicated staff members
- One of the largest bone marrow and stem cell transportation programs in the Southwestern United States performing 140+ bone marrow and stem cell transplants per year in our state-of-the-art 25 bed unit
- 200+ Transplant and cell therapy infusions annually (including malignant and non-malignant tumors)
