- Texas Children's Newborn Center is nationally renowned for its excellence in pediatric patient care, education, and research.
  - One of the country's largest and most advanced neonatal systems, with 22 evidence-based innovative neonatal clinical programs.
  - Texas Children's Neonatal Intensive Care Units combined have 215 beds and provide care to 2,000+ infants annually, making the program one of the largest and most experienced in the nation.
  - Texas Children's Fetal Center, a nationally recognized leader in the diagnosis and treatment of fetal and neonatal abnormalities, offers a comprehensive high-risk obstetric delivery service for complex neonates.
  - Texas Children's Newborn Center annually publishes the multi-disciplinary Baylor College of Medicine Guidelines for the Acute Care of the Neonate. This in-depth guide to all aspects of neonatal care continues to receive worldwide peer-to-peer recognition, with 2,800+ downloads annually from 70 countries.
  - Texas Children's is committed to the growth and development of our physician partners and is consistently recognized by the Houston Business Journal as a top place to work.
