Texas Children's Pavilion for Women

Maternal-Fetal Medicine (MFM) Program

Texas Children's Pavilion for Women specializes in the care of women with high-risk pregnancies. We are known for expertly addressing the needs of mothers and babies throughout these complex pregnancies, and for the outcomes we achieve.

Our expansive program at Texas Children's Hospital North Austin Campus includes maternal fetal medicine specialists, maternal-fetal medicine sonographers, fetal echo sonographers, certified diabetes educators, certified genetic counselors and offers a full spectrum of care from consultative and diagnostic services to comprehensive treatments that require the most advanced medical attention, treatment and surgery.

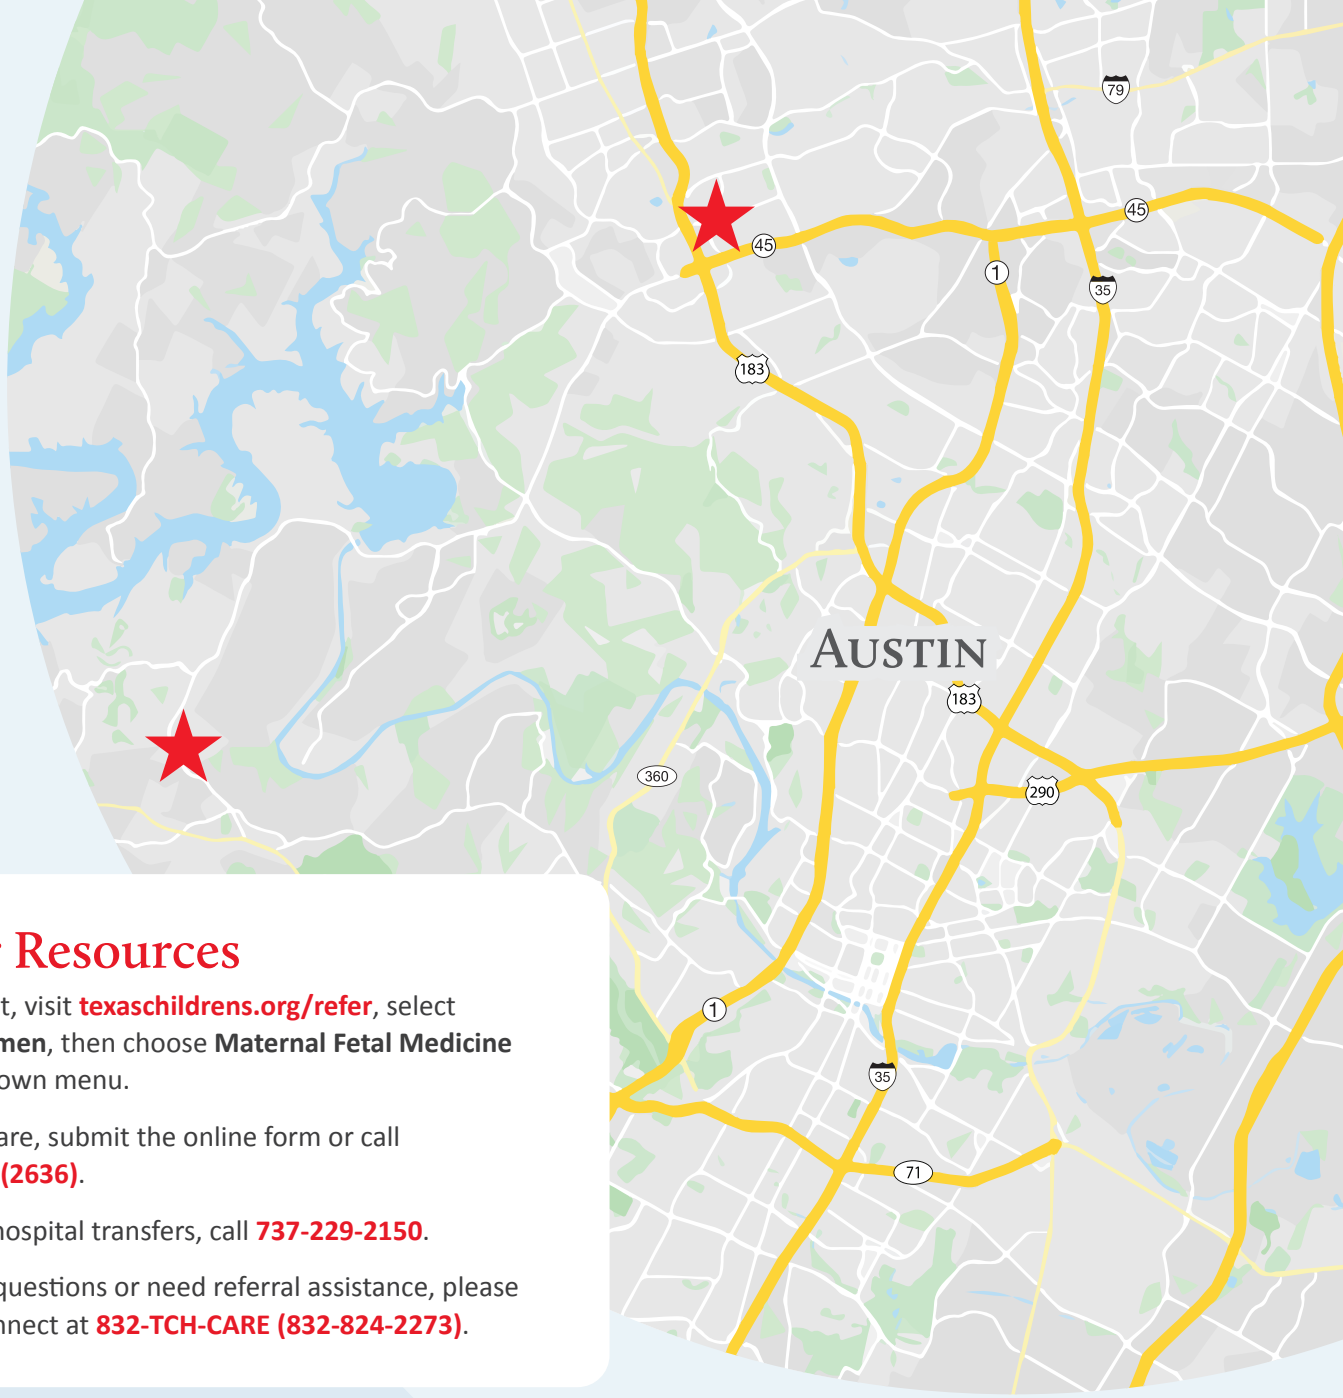

Our services include

- Comprehensive ultrasound imaging
- Diabetes counseling with certified diabetes educators
- Genetic counseling and testing
- Nutritional counseling
- Pre-conception counseling
- Caring for multiples
- Collaboration with the Adult Congenital Heart Program at Texas Children's Hospital for maternal cardiac care

Collaborative Care Model

When needed, our team collaborates with the Texas Children's Fetal Center at Texas Children's Hospital North Austin, where expectant families have access to comprehensive fetal evaluations and fetal diagnostics such as fetal echocardiogram, fetal MRI and fetal ultrasound. The Fetal Center in Austin also provides interventional therapies for selective fetal growth restriction, pleural effusion, and fetal anemia, along with other life-threatening fetal conditions.
