Your referral to Texas Children's Hospital: Endocrinology

Texas Children's Hospital®

Your doctor has referred your child to a pediatric endocrinology provider at Texas Children's Hospital. For your convenience, our endocrinology providers see patients at multiple locations and **may offer video visits for certain conditions**. Furthermore, patients in the Houston area being referred for prediabetes concerns are now being seen in the Palm Center Prediabetes Program where they are offered a comprehensive primary care approach dedicated to the treatment of prediabetes in youth.

Select visit types may require review by our team before scheduling can occur, but **many visit types can be scheduled using your Texas Children's MyChart account.**

If you do not have a MyChart account for your child, prefer to make an appointment over the phone or would like to check on the status of your referral, please call:

- **Houston area**: 832-822-2778 (Mon. – Fri., 7 a.m. – 7 p.m.)
- **Austin area:** 737-229-3550 (Mon. – Fri., 7 a.m. – 7 p.m.)

Thank you for allowing us to care for your child.
