

# Your referral to Texas Children's Hospital: Palliative Care

Your doctor has referred your child to a pediatric palliative care provider at Texas Children's Hospital. Your referral has been received, and we are ready to schedule your child's appointment. For your convenience, our palliative care providers **may offer video visits for certain conditions**.

Pediatric palliative care is specialized medical care for children with serious illnesses. It focuses on providing relief from the symptoms, pain, and stress of the illness—whatever the diagnosis. The goal is to improve quality of life for both the child and the family.

Pediatric palliative care is provided by a team of doctors, nurses, social workers, chaplains and other specialists who work together with a child's other doctors as an extra layer of support. It is appropriate at any age and at any stage of an illness and can be provided along with treatment meant to cure.

**To schedule an appointment**, please call 832-822-7228, Mon. – Fri., 8am – 4:30pm.

Thank you for allowing us to care for your child.
