

Now accepting applications!

K12 Faculty Fellowship in Pediatric Oncology Clinical Research Training Program (POCRTP)

The K12 Faculty Fellowship in Pediatric Oncology Clinical Research Training Program (POCRTP) is now accepting applications for this prestigious program specifically designed to train pediatric oncologists in translational patient-oriented clinical research. The program provides successful applicants with 75% research effort for up to three years, effective July 1, 2027.

The application portal will open August 24, 2026. Applications are due October 30, 2026.

The application must include the following:

Supporting documents:

- A statement (1 page) of why you are pursuing the K12 and how it will help you achieve your long-term career goals
- A full curriculum vitae
- A personal statement (1 page) regarding interest in pursuing a career in clinical research focused on the desired POCRTP specialty track (Discovery and Evaluation of Targeted Therapy, Immunology and Cell and Gene Therapy, Epidemiology, Data Science and Outcomes)

Eligibility requirements include:

- Junior faculty who have completed or will complete a three-year GME accredited pediatric hematology-oncology fellowship training program at the prior to July 2027
- Board certified or board eligible in pediatric hematology-oncology
- U.S. citizens, non-citizen nationals of the U.S., or individuals who are lawfully admitted to the U.S. for permanent residence
